OUT-FIT®
Fitness Equipment for a **Healthy Lifestyle**

PRODUCT HIGHLIGHTS

The Discovery™ Series Selectorized Line Triceps Extension delivers smooth, precise motion. An angled pad positions users' arms for maximum comfort and efficiency. The ratcheting gas-assisted seat adjusts easily and fits a wide range of users.

TRICEP EXTENSION-DSL0208

DISCOVERY™ SERIES

PRODUCT FEATURES

Angled Arm Pad
The angled arm pad properly positions the exerciser's arms for maximum comfort and efficiency.

Ratcheting Seat Adjustment
The ratcheting, gas-assisted seat adjustment features a large, ergonomic, over-molded rubber adjustment handle, making it easy and comfortable for exercisers to get the right fit.

Guiding Handles
The handles guide the exerciser into the optimal position for proper movement form and triceps isolation.

Weight Tower, Shroud, and Weight Stack
The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 5 lb / 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

Instructional Placard
Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.

PRODUCT SPECIFICATIONS
