

## PRODUCT HIGHLIGHTS

A foot assist bar on the Discovery™ Series Selectorized Line Chest Press allows the user to begin exercise in an advantageous pre-stretch start position. The movement arm features a forward-set low pivot for proper motion path. The ratcheting gas-assisted seat adjusts easily and fits a wide range of users.

## CHEST PRESS-DSL0404

# DISCOVERY™ SERIES

## PRODUCT FEATURES

### Low Arm Pivot

The low pivot of the movement arm supports the proper path of motion and easy entrance/exit to and from the Chest Press.

### Dual-Handle Positions

The dual-handle positions allow for wide and narrow grip options, providing exercise variety.

### Ratcheting Seat Adjustment

The ratcheting, gas-assisted seat adjustment features a large, ergonomic, over-molded rubber adjustment handle, making it easy and comfortable for exercisers to get the right fit.

### Foot Assist Bar

An integrated foot assist bar enables the exerciser to easily get into the proper start position while stretching muscles prior to beginning the movement.

### Weight Tower, Shroud, and Weight Stack

The open and inviting design allows exercisers to easily access the weight stack selector pin and add-on weight lever. The 5 lb / 2.3 kg add-on weight can be engaged with a simple flip of the lever to increase the load. The shroud cap is secured with three fasteners for easy access and maintenance, and the smaller diameter cables are flexible enough to stand up to the rigors of the facility floor.

### Instructional Placard

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance and a QR code links to a helpful 30-second instructional video.
