DPL0311 Incline Lever Row

DISCOVERY™ SERIES PLATE LOADED

Product Highlights

The chest pad, non-skid foot plate, and oversize roller pads featured on the the Discovery™ Series Incline Lever Row stabilize and support the user during the exercise. Dual position handles allow users to fine-tune the exercise position, enhancing the workout.

Product Features

1. Movement Arm Geometry

Precise positioning of the movement arm pivot and handles places the user in the optimal position to effectively work major muscles of the upper back in the most effective manner.

2. Chest Pad

The chest pad provides upper body stability and comfort, enhancing the effective load challenging the back muscles.

3. Roller Pads and Foot Plate

Large, oversize roller pads and the non-skid foot plate enhance lower body comfort and stability, allowing the user to maintain positioning throughout the exercise.
